$\qquad$
Mitosis is a process of cell reproduction in which one cell divides into two identical cells. E.coli is a fast-growing bacterium that is often responsible for food poisoning in uncooked meat. It can reproduce itself in 15 minutes. If you begin with 100 E.coli bacteria... How many will there be in one hour?

How many will there be in three hours?

Equation: $\qquad$
$\qquad$
A brand new Ford Fiesta costs $\$ 25,000$ and the car loses $12 \%$ of its value each year.

How much will the car be worth in 1 year?

How much will the car be worth in 3 years?

How much will the car be worth in 10 years?

How long will it take for the car to become "worthless"?

## Equation:

$\qquad$
